

# Habitats & Ecosystems

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Grade: Grade 2

## Part A: Multiple Choice

Circle the best answer for each question.

1. If a forest fire burns down all the trees, what will most likely happen to the squirrels?

- A) They will grow wings
- B) They must find a new home or food
- C) They will turn into fish
- D) Nothing will change

2. During a long drought, a pond dries up. What happens to the fish?

- A) They walk to a new pond
- B) They cannot live without water
- C) They start breathing air
- D) They dig underground

3. If the Arctic gets warmer and ice melts, what is a problem for polar bears?

- A) Their fur turns blue
- B) They lose the ice they hunt on
- C) They learn to eat grass
- D) They grow smaller

4. A new road is built through a forest. Which is most likely true for the animals?

- A) They get free rides
- B) Their home is split and smaller
- C) They all become faster
- D) Nothing changes for them

## Part B: Fill in the Blank

Write the correct answer on each line.

1. When a habitat changes fast, animals may need to \_\_\_\_\_ to a new place.
2. A long time with no rain is called a \_\_\_\_\_.
3. Cutting down too many trees can destroy the \_\_\_\_\_ where animals live.
4. Polar bears depend on sea \_\_\_\_\_ to hunt for seals.
5. People can help by protecting \_\_\_\_\_ so that plants and animals stay safe.

**Part A: Multiple Choice**

*Circle the best answer for each question.*

1. If a forest fire burns down all the trees, what will most likely happen to the squirrels?

- A) They will grow wings
- B) They must find a new home or food**
- C) They will turn into fish
- D) Nothing will change

2. During a long drought, a pond dries up. What happens to the fish?

- A) They walk to a new pond
- B) They cannot live without water**
- C) They start breathing air
- D) They dig underground

3. If the Arctic gets warmer and ice melts, what is a problem for polar bears?

- A) Their fur turns blue
- B) They lose the ice they hunt on**
- C) They learn to eat grass
- D) They grow smaller

4. A new road is built through a forest. Which is most likely true for the animals?

- A) They get free rides
- B) Their home is split and smaller**
- C) They all become faster
- D) Nothing changes for them

**Part B: Fill in the Blank**

*Write the correct answer on each line.*

1. When a habitat changes fast, animals may need to move to a new place.
2. A long time with no rain is called a drought.
3. Cutting down too many trees can destroy the habitat where animals live.
4. Polar bears depend on sea ice to hunt for seals.
5. People can help by protecting habitats so that plants and animals stay safe.
