

Text Features

Name: _____

Date: _____

Grade: Grade 3

Part A: Multiple Choice

Circle the best answer for each question.

1. Mia is reading a science book about space. She wants to find every page that mentions "Saturn." Which text feature should she use?

- A) glossary
- B) table of contents
- C) index
- D) caption

2. A nonfiction book shows a drawing of a flower with arrows pointing to the petals, stem, and roots. What text feature are the arrows and names called?

- A) captions
- B) labels
- C) subheadings
- D) bold words

3. Why would an author put a word in bold print inside a paragraph?

- A) To make the page look more colorful
- B) To show the word is a chapter title
- C) To signal the word is important and may appear in the glossary
- D) To tell the reader to skip that word

4. How are a table of contents and an index alike?

- A) Both are found at the front of a book.
- B) Both list information alphabetically.
- C) Both include page numbers to help readers find information.
- D) Both give definitions of vocabulary words.

Part B: Fill in the Blank

Write the correct answer on each line.

1. A _____ under the photo of a glacier explained that it was located in Alaska.
2. The glossary is always organized in _____ order so words are easy to find.
3. A _____ of the human heart showed each chamber with labels and arrows.
4. Text features are found mostly in _____ books rather than fiction books.
5. The smaller titles under the main heading help readers find specific _____ within a section.

Part A: Multiple Choice

Circle the best answer for each question.

1. Mia is reading a science book about space. She wants to find every page that mentions "Saturn." Which text feature should she use?
