

Habitats and Ecosystems

Name: _____

Date: _____

Grade: Grade 3

Part A: Multiple Choice

Circle the best answer for each question.

1. In the food chain sun → grass → rabbit → hawk, what is the rabbit?

- A) producer
- B) decomposer
- C) consumer
- D) predator only

2. Which of these is a producer in a forest food chain?

- A) mushroom
- B) oak tree
- C) squirrel
- D) fox

3. What would most likely happen if all the decomposers in a forest disappeared?

- A) More plants would grow.
- B) Dead leaves and animals would pile up.
- C) Herbivores would have more food.
- D) Rain would stop falling.

4. Which habitat has very little rainfall and extreme temperatures?

- A) forest
- B) ocean
- C) grassland
- D) desert

Part B: Fill in the Blank

Write the correct answer on each line.

1. A hawk that eats a snake that ate a mouse is called a _____ consumer.
2. Grass is a _____ because it makes food from sunlight.
3. Worms and fungi are examples of _____.
4. A food chain always starts with a _____.
5. Animals that are hunted by other animals are called _____.

Part A: Multiple Choice

Circle the best answer for each question.

1. In the food chain sun → grass → rabbit → hawk, what is the rabbit?

- A) producer
- B) decomposer
- C) **consumer**
- D) predator only

2. Which of these is a producer in a forest food chain?

- A) mushroom
- B) **oak tree**
- C) squirrel
- D) fox

3. What would most likely happen if all the decomposers in a forest disappeared?

- A) More plants would grow.
- B) **Dead leaves and animals would pile up.**
- C) Herbivores would have more food.
- D) Rain would stop falling.

4. Which habitat has very little rainfall and extreme temperatures?

- A) forest
- B) ocean
- C) grassland
- D) **desert**

Part B: Fill in the Blank

Write the correct answer on each line.

1. A hawk that eats a snake that ate a mouse is called a tertiary consumer.
2. Grass is a producer because it makes food from sunlight.
3. Worms and fungi are examples of decomposers.
4. A food chain always starts with a producer.
5. Animals that are hunted by other animals are called prey.
