Part C: Short Answer

Answer each question in one or two complete sentences.

1. Why is 'the Sun is a star' a fact and not an opinion?

2. Give one math fact and explain how you could prove it.

Part A: Fix the Sentence

Each sentence has an error. Rewrite it correctly on the line.

1. Fix the sentence: Paris is the prettiest capital in Europe.

Rewrite: Paris is the capital of France.

2. Fix the sentence: Twelve times twelve equals a huge number.

Rewrite: Twelve times twelve equals one hundred forty-four.

3. Fix the sentence: Water boils at the perfect temperature of 100 degrees Celsius.

Rewrite: Water boils at 100 degrees Celsius at sea level.

Part B: Fill in the Blank

Write the missing word or number on each line.

1. A statement that can be proven with evidence is called a fact.
2. A statement that shares a person's viewpoint is called an opinion.
3. The capital of the United States is Washington, D.C., which is a fact.
4. Saying 'pizza tastes better than pasta' is an opinion because tastes vary.

Part C: Short Answer

Answer each question in one or two complete sentences.

1. Why is 'the Sun is a star' a fact and not an opinion?

It is a fact because scientists have studied the Sun and confirmed it is a star using evidence and trusted sources like astronomy books.

2. Give one math fact and explain how you could prove it.

Five plus five equals ten. I can prove it by counting ten objects or checking a math book that shows the same answer.
