### Part C: Short Answer

Answer each question in one or two complete sentences.

- Explain to a Grade 4 student how to find elapsed time when the start time is in AM and the end time is in PM.

*I count up from the start time to 12:00 PM first to find one chunk of time, then I count from 12:00 PM to the end time to find the second chunk. I add the two chunks together. For example, 10:15 AM to 1:45 PM is 1 hour 45 minutes (to noon) plus 1 hour 45 minutes (after noon), which equals 3 hours 30 minutes in Grade 4 elapsed time.*
