

# Natural Resources and Human Impact

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Grade: Grade 4

## Part A: Multiple Choice

Circle the best answer for each question.

1. A town wants to lower air pollution. Which plan helps the most?

- A) Build more coal-burning power plants
- B) Encourage people to drive much larger trucks
- C) Add solar panels and bike lanes for travel
- D) Burn extra trash in open backyard fires

2. Which action helps clean up a polluted river ecosystem?

- A) Dumping more garbage into the river
- B) Letting factories pour waste straight in
- C) Having volunteers remove trash along the banks
- D) Pouring used cooking oil down the drain

3. Why do many countries protect rainforests as nature reserves?

- A) To stop birds and insects from flying anywhere
- B) To save habitats and many plant and animal species
- C) To create more space for parking large trucks
- D) To remove all the trees for new buildings

4. Which choice is the best example of a sustainable habit?

- A) Throwing recyclable bottles in the regular trash
- B) Carrying a reusable water bottle to school every day
- C) Leaving the television on overnight while sleeping
- D) Using a brand new paper plate at every snack time

## Part B: Fill in the Blank

Write the correct answer on each line.

1. Solar panels and \_\_\_\_\_ turbines are clean, renewable energy sources.
2. Volunteers who pick up beach litter help reduce ocean \_\_\_\_\_.
3. An area set aside to protect plants and animals is a nature \_\_\_\_\_.
4. Reusing a water bottle instead of buying new ones reduces \_\_\_\_\_ waste.
5. Making choices today that protect Earth for the future is being a good \_\_\_\_\_.

**Part A: Multiple Choice**

Circle the best answer for each question.

1. A town wants to lower air pollution. Which plan helps the most?

- A) Build more coal-burning power plants
- B) Encourage people to drive much larger trucks
- C) Add solar panels and bike lanes for travel
- D) Burn extra trash in open backyard fires

2. Which action helps clean up a polluted river ecosystem?

- A) Dumping more garbage into the river
- B) Letting factories pour waste straight in
- C) Having volunteers remove trash along the banks
- D) Pouring used cooking oil down the drain

3. Why do many countries protect rainforests as nature reserves?

- A) To stop birds and insects from flying anywhere
- B) To save habitats and many plant and animal species
- C) To create more space for parking large trucks
- D) To remove all the trees for new buildings

4. Which choice is the best example of a sustainable habit?

- A) Throwing recyclable bottles in the regular trash
- B) Carrying a reusable water bottle to school every day
- C) Leaving the television on overnight while sleeping
- D) Using a brand new paper plate at every snack time

**Part B: Fill in the Blank**

Write the correct answer on each line.

1. Solar panels and wind turbines are clean, renewable energy sources.
2. Volunteers who pick up beach litter help reduce ocean pollution.
3. An area set aside to protect plants and animals is a nature reserve.
4. Reusing a water bottle instead of buying new ones reduces plastic waste.
5. Making choices today that protect Earth for the future is being a good steward.
