

Earth's Layers

Name: _____

Date: _____

Grade: Grade 5

Part A: Fix the Sentence

Each sentence has an error. Rewrite it correctly on the line.

1. Fix the sentence: The mantle is the thinnest layer of Earth and we live on top of it.

Rewrite: _____

2. Fix the sentence: Earth has three layers called the crust, mantle, and core.

Rewrite: _____

3. Fix the sentence: The inner core is made of liquid iron and nickel that flows freely.

Rewrite: _____

Part B: Fill in the Blank

Write the missing word or number on each line.

1. The _____ is the outermost layer of Earth where people, animals, and plants live.
2. The _____ is the thickest layer of Earth at about 2,900 kilometers deep.
3. The outer core is a _____ layer made of melted iron and nickel.
4. The inner core is _____ even though it is extremely hot because of enormous pressure.

Part C: Short Answer

Answer each question in one or two complete sentences.

1. List Earth's four layers in order from the surface to the center.

2. Why is the crust important for life on Earth?
